Gaylord at Waldorf
St. Peter at Lake Crystal
Lonsdale at Veseli
New Prague at Montgomery

Region 12C Notes

Region 12C combines five teams out of the River Valley League and two teams out of the DRS League. They will seed 1 to 7 based on season winning percentage. Seeding will be based on how the teams fare against Class B and C from their own league, as well as crossover games against the other league. In all, the DRS will play 21 games for seeding while the RVL will play 13 games for seeding. Because the RVL plays far fewer games against Class B competition, their games vs. RVL B (Eagle Lake, Jordan, and Le Sueur) will count as double in the standings pushing their total games for seeding up to 16. The standings will follow the WEIGHTED record up above which applies the RVL multiplier vs RVL B teams.
